Studio Frederik Roijé

Studio Frederik Roijé is a design studio that focuses on product and interior design. The approach is to reach a new level in product design and space.

Besides working for clients it creates its own collection of furniture designs, which is sold and distributed worldwide under the name of Frederik Roijé.

The collection exists of: furniture, lighting and home accessories, and is renowned for its creative and innovative designs. Always willing to extend, Frederik Roijé is constantly developing new products. If you have an interest in selling our products please contact the studio.

At Maison&Objet 2018 Roijé will be proudly presenting his new lamps "Beaming Blobbers" to the international audience. Everyone knows the feeling of waiting and staring at a blobber, hoping for it to go underwater. We have captured these achetype shapes and translated it into lamps: Beaming Bobbers. These lamps float above your table and shining a beam of light in your interior.

For more information contact our office or check the website of [Studio Frederik Roijé](#) as well as the Maison&Objet [web catalogue](#).

MAISON&OBJET
