PUIK Design (Hall 6 – Today – Stand N° L141)

PUIK is picky and invites you to be too. They are selective. Their collection contains the best designs by designers who are just as demanding as they are. Each item is original, produced sustainably, and made of first-class material. PUIK represents with great pride and honor.

Label puik represents contemporary dutch designers. People who they know first-hand and closely collaborate with Frederik Roijé, Lex Pott, Ilias Ernst, a.o. PUIK is people just like you.

PUIK makes design personal. They are driven to provide you with the best, by the best – and are determined to continue doing so. We are PUIK.

TWO-O (Hall 6 – Stand № K142)

At TWO-O they embrace modern craftsmanship. They create products in an authentic way with wood and metal. Sustainable wood and metal that lasts longer. Sustainability isn't a goal but a necessity. All elements of design and craftsmanship come together in their newest collection of home furniture and accessories.

TWO-O breathes craftsmanship and strives to show this in all designs they bring to market. For the newest collection TWO-O received inspiration from typical Dutch delights like 'Gezelligheid'(close to cozy) and 'Borrelen' (eating and drinking with friends).

New Citizen Design (Hall 6 – Stand № K142)

New Citizen Design is a design producing company and design thinker, taking the point of view of the new citizen for spatial and interior design. They define the new citizen as a metropolitan person, internationally oriented, more often educated but not of a specific social class or generation. The new citizen is self-confident and has great trust in the future. He is curious for what's new and agile to change. He values sustainability.

At M&O New Citizen Design presents:

Designs by Wieneke van Gemeren: FOG Mirror and RAY x-ray table, functional designs with a twist.

TWINS lamp, by Sander Wassink's Travel Agency of Things, a design made of up-cycled ceramics.

From famous pattern designer Christie van der Haak, they present tufted and vinyl indoor and outdoor rugs (Christie's Carpets) and quality jacquard woven Christie's Fabrics.

SILHOUET LIGHTING (Hall 6 – Stand № K142)

Silhouet, short for Silhouet Lighting, is a Dutch label of local and handcrafted lighting objects in subtle uncomplicated designs, genuine fabrics & colors creating atmospheric light.

When the first items of Silhouet were created, there was one specific goal; take pointless elements from an object, though give the remaining essential shape character.

"I want to create a brand which will be a legendary brand; with objects which creates value for customers, employees and stakeholders.

With designs that evoke emotions. Because it appeals to you or detests you. That surprises you or alienates. But certainly does not leave you unmoved. Please note; We don't claim to be art, it's only aesthetically."

Jeroen, Silhouet Lighting
